PARIS, Nov. 10.—Provost Paradol, the eminent [illegible] journalist, delivered a lecture here last night in which he made the following point [illegible] the [illegible] political situation in France. Important interference we abandoned as a meddlesome and ambitious de[illegible] [illegible] influence we shall always forswear, but the sentiment of brotherhood for those countries with which we are united by so many ties every Minister is bound to cultivate, and should not [illegible] its renouncement. Happily we are disregarded from prosecuting a quarrel with the world, having none to prosecute. The friendly associations of England, though not obtruded, are always ready when sought for, and have no small influence in allaying disturbances and composing differences which have and might have arisen in various parts of the world. In referring to the general settlement of England's differences with foreign countries he said there was one partial exception, which is of the deepest interest to all Englishmen, namely our relations with America. In this connection he referred to the death of Peabody, who in one sense was a citizen of both countries, and eulogizing him as a man whose splendid benefactions will immortalize his name in England, but whose fame in a broader sense is applicable to all humanity. With Peabody's country we are not likely to quarrel. It is true that care and skill are required in diplomacy, animated though it has been by the purest and most upright feelings. Although it has not impaired our peace, it has failed to lead to a [illegible] of the first issues up to the present moment upon [illegible] questions of law which have been in discussion between the two countries. Considerable delay has taken place, yet every delay [illegible] leading to danger, was prompted by considerations of good will and a desire to allow the intervention of a limited time to obviate difficulties. I believe the world would view with horror a [illegible] strife between England and America, but such a state of affairs is not likely to arise from our present relations, and my confidence is in the sentiments which I know animate the American Government, as well as our own, and which also animate the minds of the people of these two great countries. (Cheers.)

LONDON, Nov. 10.—There is still considerable excitement in Ireland on the question of imprisoned Fenians.

Despatches from Dublin to-day state that last evening, at a meeting of the Dublin [illegible] Association and Amnesty Committee, a number of men broke into the rooms of the latter and smashed the lamps, destroyed furniture, purloined records and committed other outrages. No arrests were made.

The Central Fenian Amnesty Committee ask Irishmen to abstain from the use of tobacco until the Fenian prisoners are [illegible]. The object of making this request is to reduce the [illegible] of the Government and provide a fund for keeping up the amnesty agitation.

The *Times* to-day reports that the Irish land question is a matter of great difficulty, but if the ministry are unable to cope with it, what must be said of their courage and statesmanship? They are strong beyond all example. The nation is strong beyond all example. The national feeling is more advanced than the temper of Parliament in sustaining the ministry and in support of any thorough searching workmanlike attempt to cure the long standing evil of Irish discontent. The Government have power if only their courage is equal to their power. High fortunes are before them if their minds are equal to their fortunes.

Edged Tools

[illegible] and was five years [illegible] from the fourth [illegible] It is estimated the labor [illegible] pork or the equivalent [illegible] one-fourth of a pound of tea—the whole costing perhaps twenty cents per day. And this is what cheap labor means. [illegible] If there is a man in Oregon who is reconciled to work with a reservation of only one hour of daylight for these wages—and feed upon fourteen pounds of rice and five pounds of pork per week that man is of course a Republican. He wants the 15th amendment adopted—he believes in an enormous tariff to make manufactures rich and he would shrink from a proposition to tax bondholders as he would from the presence of the plague. It is hard to properly estimate the [illegible] of such a man—who can accept [illegible] the miserable condition of a serf from the [illegible] party. These coolies can work and live just as cheaply in Oregon as anywhere in the United States.

The *Democrat* we suppose considers this invective very damaging to the Republicans. But that paper is simply sharpening a weapon against its own party. The danger of handling edged tools carelessly never had a better illustration. For it is not Republicans who are introducing this odious system of labor at thirty four cents a day with a small allowance of rice and pork for food but it is Democrats, the late slaveholders the Southern chivalry whom the doughface Democracy of the North have always followed and worshipped, who are engaged in this scheme. A slight but very truthful parody of the *Democrat's* remarks would read as follows: "If there is a man who is taking measures to secure laborers whom he can work for these wages, granting them a respite of only one hour of daylight and feeding them upon fourteen pounds of rice and five pounds of pork per week, that man is of course a Democrat—he is one of that class who believe in the slave system under which labor can be obtained or coerced without paying any wages at all—he opposes the 14th and 15th amendments and all such things as civil rights and the ballot for those whose labor he is so anxious to steal. It is hard to properly estimate the virtue of such a man—who thinks that a laborer must be a serf, and who, if he cannot compel a negro to work for him for nothing imports a Chinaman to work for him for next to nothing." All this is "very Democratic, and as we are assured that these coolies can work and live just as cheaply in Oregon as anywhere in the United States," we may naturally expect that the Democracy here who have always truckled to the plantation lords of the South defended their action and followed their example, will soon be prepared to take a cargo or two of Koopmanschap's importations.

Three Noted Men

The dispatches which we publish to-day report the death of three noted men, General Wool, Amos Kendall and Robert J. Walker.

John Ellis Wool was born in Newburg New York, in 1789, and had therefore reached the advanced age of eighty years. In his youth he was proprietor of a book store in Troy. This was consumed by fire and he turned his attention to the law. At this time the war of 1812 broke out and the friendship of Gov. Clinton of New York secured for him a Captain's commission in the army. His services in the war, which were quite important, need not be recounted here. In 1841 he reached the rank of Brigadier General. For gallant services in the Mexican war, and especially at the battle of Buena Vista, he was brevetted Major General. His presence in Oregon as commander of the military forces during the Indian war of 1855-56 is well remembered by our people. In May, 1862, he was promoted to the full rank of Major General.

Amos Kendall was also born in the year 1789. His native place was Dunstable, Massachusetts. In 1814 he went to Lexington, Kentucky, and for several months was tutor in the family of Henry Clay. Shortly after this he became attached to the editorial staff of a Frankfort paper, in which station he distinguished himself. He espoused the Democratic side, obtained the notice and favor of Gen. Jackson who in 1831 appointed him Fourth Auditor of the Treasury Department and in 1835 made him Postmaster General. He retained this position in the Cabinet under Mr. Van Buren, and retired in 1840 since which time he has not been engaged in public life.

Robert J. Walker, was born in 1801 in Northumberland, Pennsylvania. He was a supporter of Jackson and Van Buren and exerted a great influence over the Tyler administration. He was a Senator from Mississippi from 1836 to 1845 when he became Mr Polk's Secretary of the Treasury. The last office he held was that of Governor of Kansas Territory, which he resigned in consequence of a disagreement with President Buchanan.

[illegible] GLEANINGS

The full official returns of the Ohio election give the following aggregates: Hayes, 235 972; Pendleton, 228,332. Republican majority, 7,640.

The Springfield *Republican* tells of an agent who once upon a time was sent out to collect funds for Amherst College and on returning reported an excess of expenditures over [illegible] tions, and added: "But [illegible] I have found great encouragement to pray."

The Lyon Association of St Louis has contracted with J Wilson McDonald for an equestrian statue of General Nathaniel Lyon, to cost $30,000, and be completed within four years. The St. Louis *Democrat* suggests that Connecticut furnish the pedestal, General Lyon having been a native of that State.

The expenses of the Navy Department from March 1, 1869, to November 1 1869 amounts to $2,195,785 per month average. The last seven months of the late Government the expenses amounted to $2,627 384 per month $4[illegible]6 000 per month in favor of the present Administration. The last three months of Secretary Welles official life, the expenses were $[illegible] 531 044 per month a difference of $637 219 per month in favor of the present Administration.

A Washington dispatch of Nov 1st says: General Charles K Gardner died to-night aged eighty three years. He has filled many important offices having been Adjutant General of the army, Surveyor General of Oregon, Postmaster of this city and Sixth Auditor of the Treasury. One of his daughters was the wife of ex Senator Mutant [illegible] Louisiana, and another of Commodore Almy of the Navy. He was also father of Maj Gen Frank Gardner prominent in the rebel army during the war.

Enormous beds of rock salt have been discovered on the Canadian shore of Lake Huron. The deposit is said to be the largest in the world exceeding in extent the famous salt mines near Cracow in Poland which have been worked since the beginning of the twelfth century. The Canadian deposit is reported to reach forty miles in a direction nearly from north to south while nothing is known of its breadth from east to west. Practically if the reports are correct the Canadian deposit is inexhaustible.

The funeral cortege passed slowly through the streets which were lined with silent crowds of spectators to Westminster Abbey. The venerable structure was completely filled with people who had been admitted by tickets and were all draped in mourning. The choir was hung with black and the sombre aspect was only relieved by the richly decorated robes of the Lord Mayor and Sheriffs standing near the sacrament. As the body was brought in there entered Mr Gladstone Lord Clarendon, the Deane of St. Pauls Rev Binnely dissenting minister General Edward Dey and John Bright. A flood of sunshine poured through the windows of the choir the moment the procession entered the building. The coffin which was placed on the bier at the end of the choir was ornamented with black cloth. On the lid was a brass plate with an inscription giving simply the name of the deceased, the name the place and the date of his birth and death. A lesson was read by the Arch Deacon of Westminister, and as soon as the solemn ceremony within the church was over the procession formed again and advanced to a spot near the western entrance where a temporary grave had been prepared and an excavation of two or three feet had been made, the sides of which were draped in black. Here the body was deposited and will remain till transported to America. Lord John Binner read the remainder of the services at the head of the grave. On the right stood the mourners including the American Minister. On the left stood Gen Grey Mr Gladstone Lord Clarendon the Lord Mayor the High Sheriff and clergy of Westminister and St Pauls. The solemnity of the occasion was profoundly felt by the vast assembly. Many shed tears during the choral service which included singing of the anthem "His body is buried in peace but his name liveth evermore." After the coffin had been lowered into the grave a floral cross was placed upon it. This act was performed in [illegible] and silence and served to increase the emotion which pervaded the congregation. The people then passed round the coffin and took a last look at the features of the deceased. The Bishop of London will preach a funeral sermon on Sunday next.

An immense crowd of persons assembled at the scene of the disaster and the roads leading thereto were filled with vehicles conveying people to the spot. At least 5 000 people visited the scene. There is no doubt but that the engineer of the Alameda train whistled down brakes but the signal was instantly followed by the crash. A farmer who was standing at his barn [illegible] a quarter of a mile distant distinctly heard the whistle and immediately afterwards the sound of the dreadful accident. The news of the accident which reached the city about 10 o'clock created great excitement throughout exaggerated rumors being circulated.

RAILROAD SURVEY.—The Albany *Democrat* says the survey of the East Side Railroad have surveyed the new line so as to enter the town at the north end, at the old brick yard; thence south to a point on the Calipooia, about one hundred yards above the bridge on the Corvallis road; thence directly in front (west) of Albany College, passing the residence of Thomas Monteith, Esq. Instead of being on the outskirts, the road passes within an acre of running directly through the heart of the city. The *Democrat* represents the people of Albany as having gone wild on the railroad question. It says since the surveyors have encamped within our limits and surveyed the line along our borders all the talk is railroad. Almost any time of the day little groups may be seen on the street talking railroad. Our hotels dish up "railroad hash," and all the talk in the homes is railroad. Every urchin imagines himself a locomotive and tries to make a construction car out of the house cat. Every beau tries to make a train and couples on his little sister. Every sweet-heart a train and couples on at a station. The saloons all have railroad punch and "lightning train cocktail," and the church passes the "saucer" on a hand car, and the preacher sends the unbelievers to Hades by lightning express. The school teachers talk switches to their scholars and the merchants advertise cow catchers. In the meantime property is going up. We would advise all those who don't want to run to "clear the track."

ORO FINO THEATER.—Shakespeare's great tragedy of Macbeth was performed at Oro Fino Theater on Saturday evening. We were pleased to see a full house on the occasion. Mr. Bates sustained the character of Macbeth throughout in good style, and in many of the scenes, as the great conspirator and man of blood, with almost startling effect. His part in the play was the most decided success. Mrs. Bates played the character of Lady Macbeth with fine effect throughout the first act. Her reception was faultless and we do not see how her acting could have been improved. In the following two or three acts, however, with the exception of where she snatches the daggers from Macbeth and rushes into the king's apartment to leave there the evidences of murder against the guards, her acting was too tender and womanly. The sleep-walking scene was very finely done. In the acting the fault we have noticed, and her conception of the hard ambitious woman, was very effective. As Macduff, Mr Carter was very good, especially in the pathetic passages. Messrs. Barry and Bird and Miss Carter, as witches, could not have been better, either in make up or in acting. The personation of the king by Mr. Ellerton was too tame. Mr Morrison's Banquo was very fair, as was Miss Cummings' Malcolm. Considering the number of people and the small size of the stage, we doubt if there is a company on the coast that could present the piece in better style, and the company that could excel it are scarce.

THE FATE OF A QUORUM HUNTER.—The following very amusing account of the Laboring Lawyers who it seems, has been written from a Portland correspondent of the Salem *Press*: "I visited one of the meetings of the 'Workingmen's Association' the other evening, when I found that three small politicians, who run the thing, waiting for their quorum. You know 'Col' Chapman who is chief of this demagoging organization, has a penchant for speculating in quorums. Well, the same old fate befell him; his quorum did not arrive, and the three little bob-tail demagogues who had not done a day's work in ten years, retired. I thought the thing was dead, and expected to see an obituary in next morning's *Herald*, but in this I was disappointed. Imagine my surprise on seeing the meeting noticed in next morning's paper as a most enthusiastic demonstration of the Working Men."

WEATHER FOR OCTOBER.—Mr T Pearce, of Eola, has handed us, says the *Statesman*, his weather record for October, 1869, from which we compile the following: There were 20 clear days; 1 cloudy the 4th; 2 foggy, 15th and 16th; 2 rainy the 5th when 23 hundredths of rain fell, and on the 6th, 7-400 do. The prevailing winds were North for the 1st, 2d and 3d. South on the 4th and 5th, North until the 30th, then South 30th and 31st. The mornings of the 1st, 7th, 8th, 12th, 13th 14th, 19th and 22d, were foggy. The nights of the 5th and 6th were frosty. Mean temperature for the month was 52°; mean temperature, on the 3d, 57°; lowest, on the 24th and 25th, 44°. Comparing this with the record of 1868, there were in October of that year, 7 rainy days, 7 cloudy and 19 clear; mean temperature, 41°, highest on the 3d, 59°, lowest, on the 15th, 40°.

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Browster Patent, heretofore considered the best in use.

FORM OF PROPOSAL, GUARANTEE, AND CERTIFICATE.

Proposal.

The undersigned ——, whose post office address is ——, county of ——, State of ——, proposes to convey the mails of the United States from July 1, 1870, to June 30, 1874, on route No. ——, between —— and ——, under the advertisement of the Postmaster General, dated September 30, 1869, with "celerity, certainty, and security," for the annual sum of —— dollars.

This proposal is made with full knowledge of the distance of the route, the weight of the mail to be carried, and all other particulars in reference to the route and service, and also after careful examination of the laws and instructions attached to the advertisement.

Dated (Signed.)

Guarantee.

The undersigned, residing at ——, State of ——, undertake that, if the foregoing bid for carrying the mail on route No. —— be accepted by the Postmaster General, the bidder shall, prior to the 1st day of July 1870, enter into the required obligation or contract to perform the service proposed, with good and sufficient sureties.

This we do, understanding distinctly the obligations and liabilities assumed by guarantors under the 27th section of the act of Congress of July 2, 1836.

Dated (Signed by two guarantors.)

Certificate.

The undersigned, postmaster at ——, State of ——, certifies, under his oath of office, that he is acquainted with the above guarantors, and knows them to be men of property, and able to make good their guarantee.

Dated (Signed.)

Cal., Oregon, and Wash. ——4.

INSTRUCTIONS TO BIDDERS AND POSTMASTERS;

Containing also conditions to be incorporated in the contracts to the extent the Department may deem proper.

1. Seven minutes are allowed to each intermediate office, when not otherwise specified, for assorting the mails, but on railroad and steamboat routes there is to be no more delay than is sufficient for an exchange of the mail pouches.

2. On railroad and steamboat lines, and other routes where the mode of conveyance admits of it, the special agents of the Post Office Department, also post office blanks, mail bags, locks and keys, are to be conveyed without extra charge.

3. On railroad and steamboat lines the route agents of the Department, also the British and Canada mails, when offered, and the agents accompanying them, are conveyed without charge; and for the use of the United States agents a commodious car, or part of a car, properly lighted, warmed, and furnished and adapted to the convenient separation and due security of the mails, is to be provided by the contractor, under the direction of the Department.

Railroad and steamboat companies are required to take the mail from, and deliver it into, the postoffices at the beginning and end of their routes, and to and from all offices not more than eighty rods from a station or landing. Proposals may be submitted by the companies for the performance of all other side service, that is, for offices over eighty rods from a station or landing.

There will be "way bills" prepared by postmasters, or other agents of the Department, to accompany the mails conveyed on railroads and steamers, specifying the number and destination of the several bags. On other principal routes, likewise, receipts will be required and way bills forwarded, the latter to be examined by the several postmasters, to insure regularity in the delivery of mails.

4. No pay will be made for trips not performed, and for each of such omissions, not satisfactorily explained, three times the pay of the trip will be deducted. For arrivals so far behind time as to break connection with depending mails, and not sufficiently excused, one-fourth of the compensation for the trip is subject to forfeiture. For repeated delinquencies of the kind herein specified, enlarged penalties, proportioned to the nature thereof, and the importance of the mail may be made.

5. For leaving behind or throwing off the mails, or any portion of them, for the admission of passengers, or for being concerned in setting up or running an express conveying intelligence in advance of the mail, a quarter's pay may be deducted.

6. Fines will be imposed, unless the delinquency be promptly and satisfactorily explained by certificates of postmasters or the affidavits of other credible persons, for failing to arrive in contract time, for neglecting to take the mail from, or deliver it into a postoffice, for suffering it to be wet, injured, destroyed, robbed or lost, and for refusing, after demand, to convey the mail as frequently as the contractor runs, or is concerned in running, a coach, car, or steamboat on a route.

7. The Postmaster General may annul the contract for repeated failures to run agreeably to contract, for violating the post office laws, or disobeying the instructions of the Department, for refusing to discharge a carrier when required by the Department to do so, for running an express as aforesaid, or for transporting persons or packages conveying mailable matter out of the mail.

8. The Postmaster General may order an increase of service on a route by allowing therefor a pro rata increase on the contract pay. He may change schedules of departures and arrivals in all cases, and particularly to make them conform to connections with railroads, without increase of pay, provided the running time be not abridged. The Postmaster General may also discontinue or curtail the service, in whole or in part, in order to place on the route superior service, or whenever the public interests, in his judgment, shall require such discontinuance or curtailment for any other cause, he allowing as full indemnity to contractor one month's extra pay on the amount of service dispensed with, and a *pro rata* compensation for the amount of service retained and continued.

9. Payments will be made by collections from or drafts on postmasters, or otherwise, after the expiration of each quarter, say in November, February, May and August.

10. The distances are given according to the best information, but no increased pay will be allowed should they be greater than advertised, if the points to be supplied are correctly stated. *Bidders must inform themselves on this point*, and also in reference to the weight of the mail, the condition of the roads, hills, streams, &c., and all toll bridges, ferries, or obstructions of any kind by which expense may be incurred. No claim for additional pay, based on such ground, can be considered; nor for alleged mistakes or misapprehension as to the degree of service, nor for bridges destroyed, ferries discontinued, or other obstructions increasing distance or expense, occurring during the contract term. Offices established after this advertisement is issued, and also during the contract term, are to be visited without extra pay, if the distance be not increased.

11. Bidders are cautioned to mail their proposals in time to reach the Department by the day and hour named (3 p. m., March 1, 1870), for bids received after that time [illegible]

12. [illegible]

13. [illegible]

14. [illegible]

15. [illegible]

Altered bids should not be submitted [illegible]

Each bid must be guaranteed by two responsible persons. The bid and guarantee should be signed plainly with the full name of each person.

The Department reserves the right to reject any bid which may be deemed extravagant, and also to disregard the bids of failing contractors and bidders. (Act of July 2, 1836, section 24.)

16. The bid should be sealed, superscribed "Mail Proposals, State of Oregon," addressed "Second Assistant Postmaster General, Contract Office," and sent by mail, not by or to an agent; and postmasters will not receive or forward [illegible]

17. [illegible] should be executed and returned to the Department by or before the 1st day of July, 1870, [illegible]

18. [illegible]

19. [illegible]

20. [illegible]

21. Postmasters are to be careful not to certify the sufficiency of guarantors or sureties, without knowing that they are persons of sufficient responsibility [illegible]

22. Present contractors and persons known at the Department must, equally with others, procure guarantors and certificates of their sufficiency in the form above prescribed. The certificates of sufficiency must be signed by a postmaster [illegible] No other will be admitted.

JNO. A. J. CRESWELL,
Postmaster General.
